Thought He was Slick, but was not Slick Enough for Green Goods Men. New York, August 4.—The wave of financial depression swept over Crete. Neb., several weeks ago and caused a scarcity of currency. J. A. Derse, the city marshal of the town, who owns a big store where everything that country folk usually require is sold, was affected by the dearth of cash. He had received a typewritten letter from a New York firm of green goods merchants and he decided to come on and do up the metropolitan fakirs. He arrived vesterday morning and went to

do up the metropolitan fakirs. He arrived yesterday morning and went to the Cosmopolitan Hotel, paying for his reom in advance. He "flow light," which in the vernacular of the hotel clerk means that he had no baggage. In the afternoon he met two men, one tall and muscular looking and the other small and wiry in a saloon at 3 Roosevelt street just off Park Row. The muscular man was the senior partner of the green goods firm. He carried a japanned box about twelve inches long, nine wide and six deep. The New York merchants said that there was \$5,000 in good money in the japanned box and that the marshal of Crete could have it for \$1,000.

The man from Crete grabbed the box and yelled police. He got both, but when the box was forced open at head-quarters the \$5,000 he expected he had found was just \$4,889 short of that amount. DEPENDS ON THE PRESIDENT.

No Committee Appointments Until His Policy is Outlined in His Message.

New York, August 4.—A World's Washington special says: Speaker Crisp authorizes the statement that there is no basis whatever for any one of the many reports which have been circulated regarding the appointment of chairmen of committees. Has not yet decided on a single appointment, and will not do so for several days, certain-ly not before the arrival of the President ly not before the arrival of the President and Secretary Carlisle and probably not until the caucus shall have officially designated him as its candidate for speaker. He does not expect to announce the committees until eight or ten days after the organization on Monday. He may make an exception of the committee on coinage, but has reached no such determination as yet.

The speaker's only aim is to do only that which will be of greatest service to the party. To accomplish that purpose he feels the necessity of earnest co-operation with the administration, and as he has not seen either the President or the secretary of the treasury for several

The truth is that all depends upon the tone of the message. If Mr. Cleveland shall confine his recommendations strictly to repeal, with no hint of subsequent legislation in the direction of bi-metallism, it might be considered wise to pit Cockran against the redoubtable Bland, in which event Cockran would leave the ways and means committee to become chairman of the coingre countities. If on the of the coinage committee. If on the other hand the President should deem a more pacific policy advisable, it might be considered wise to permit Mr. Bland to rotain his position, if he should care to do so, despite an opposing majority in his committee. All depends on the Fresident's policy as outlined in his message.

HOYAL YACHT REGATTA.

The American Bont Comes out Last in the

LONDON, August 4 .- The regatta of the royal yacht squadron, of which the Store.
Prince of Wales is commodore, took place to-day. The race for yachts of any rig exceeding 40 rating was contested for by the Satanita, the Valkyrie, the Callung and the America Navahoe

The starting gun was fired at 10 o'clock and the yachts crossed the line in this order: Calluna, Satanita, Valkyrie, Navahoe. Though the Navahoe got the best position she cut a poor fig-ure. She tacked shoreward with the apparent intention of taking the other yachts wind, but the attempt failed. The Satanita finished first, the Valkyrie second, Calluna third, and Navahee last. The prize was \$500.

A SUSPECTED STEAMER,

No Cholera on Board but Due Precautions Are Taken.

NEW YORK, August 4.—Health official Dr. Tallmadge boarded the suspected Naples steamer Karamania, this morning, and inspected the passengers. All are well. Dr. Jenkins has asked the commissioners of quarantine to send transfer boats to take the passengers to the islands, where they will be bathed and washed. Dr. Jenkins says that while he can find no evidence that cholera exists or has existed on the Karamania he deems the circumstances sufficiently suspicious to hold the ves-sel and passengers until all doubts are removed. This morning arrangements are being made to locate the passengers on the islands.

The Argentine Revolution.

VALPARAISO, August 4. - A correspondent in Buenos Ayres telegraphs that the revolutionists in Santa Fe have sentan ultimatum to the vice governor of that province. The terms of the ultimatum demands an immediate capitulation, the disarmament of the governor's forces and their mustering out. From Rio a correspondent telegraphs that the cabinet has resigned. Minister Errazuriz has resigned his cabinet position. President Mentt has accepted the resignation.

A Pertinent Suggestion.

Under the heading "Good Things to Remember," the Cleveland, O., Leader has this very sensible resume of the sit-

It is well to remember in these troub-It is well to remember in these troublous times that the country is very big,
and that a multitude of men can be out
of work and still leave many millions
fully amployed. At worst, the burden
of enforced idleness is not so heavy as it
is in the most favored countries of Europe, where the standing armies alone
keep millions of strong young men
worse than useless. In like manner while
many banks fail they are few in com-

parison with those which stand unshaken. In New York, Boston, Philadelphia, Pittsburgh, Cleveland, Baltimore, St. Louis, Cincinnati, San Francisco, New Orieans, St. Paul and many other great centres of trade and industry the banks have not flinched as yet, and Chicago has scarcely been touched. Generally speaking, the populous eastern and central sections of the United States have been solld beyond all expectation, and they will go through the whole financial and commercial disturbance in good enough condition to rapidly repair the damage done in the west. This republic is all right yet, and prosperity will come again before the faint-hearted look for it.

The World's Fair Management Bending Every|Effort-Scotland's Day

World's Fair Grounds, August 4.— The World's Pair management does not intend to stop at closing up leaks and pruning down expenses. The local directory, council of administration and association of American exhibitors are working in unison to furnish special attractions that will draw out the people and so increase the receipts. Each of the organizations will have a special line of work to follow and the purpose of each will be the same, to enlarge the attendance.

This was Scotland day, and thousands of men in kills could be seen on all sides.

This was Scotland day, and thousands of men in kilts could be seen on all sides. The attendance of those who are members of the organized societies within the World's Fair Scottish assembly was very large. But much larger was the crowd of Scottish-American people, residents of Chicago and neighboring cities, who made this occasion a special reason for their visit to the fair. The cities, who made this occasion a special reason for their visit to the fair. The programme of exercises provided for a reunion in the morning at the Illinois state building, and this meeting, which was held in the press room there, was largely composed of literary men, vocalists and artists. At the congress of Scots, as it was announced, a programme of addresses was held in festival hall during the afternoon. At the conclusion of this in festival hall a special concert of Scottieh songs was given.

This afternoon the board of lady managers gave a reception to the officers of the Viking ship. The affair took place in the assembly room of the woman's building. A fine musical pro-

woman's building. A fine musical programme was rendered.

The report that Theodore Thomas had resigned is denied. Director General Davis said so far as he knew the report was false. "If he has resigned," said Colonel Davis, "I know nothing of it, but I do not think he has, nor do I think there is any degree that he will the the second think there is any danger that he will resign."
President Higinbotham said point-

blank that report was not true.

Lebanon Bank Closes.

LEBANON, PA., August 4.—The Lobanon Trust and Safe Deposit Bank failed to rust and Safe Deposit Bank failed to open its doors this morning. The announcement made was: "This bank closed by order of the directors." The bank is a state institution with a capital of \$50,000. It is believed that the suspension is but temporary and that all depositors will be paid in full. It will have but little if any effect on the other banks.

Chicago, August 4.—Fews an uneasy, feverish day in the wheat pit. Trading was scant. Prices ran up and down several times within a range of 1962 and left off about 3/62 lower than on the day before. The Walker failure came too late to be a factor, but it has been more or less discounted for some time. The weaker opening was due to the bank failure at St. Paul, reported in the morning papers some cholers acare, and rumon of troubes in mercantile houses here. Cables, too, were lower, which helped to weaken the market, but the large clearances and good buying orders had the effect of changing the decline, and prices were advanced and then eased off again on more bank failures in the northwest. Operators seemed inclined to buy, but the disquicting rumors had a bad effect. Trading was maning of a local character.
